RESPONDERS' COMMENTS FOR MTH 299 006 (FS17)

Question 16: Would you recommend this instructor to another student? Comments on your classroom experience, the instructor's teaching style, and course materials are very helpful.

- Best of the best
 - I would recommend this instructor to students who like to know the why before the how to on math. Her teaching style did not quite match my learning style, but she was always willing to try to help.
 - Reshma is an excellent teacher. She will help you for as long as you need in class.
 - Reshma was wonderful. She did an excellent job of explaining complex mathematical ideas in a patient and encouraging way. She was an excellent resource to have available for help on difficult homework questions in the Math Learning Center as well. Reshma worked with students providing hints and background to see the logic behind the answer. I appreciated this because instead of being told the answer right away, I had the opportunity to think for myself, learn and recognize what was happening, and then eventually find the solution. This helped me understand the problem in general much better. I really enjoyed the content of this math class, and I believe the instruction was a large reason for my positive experience. If it was required for my major and I had more time in my schedule, I would take more math classes because of the positive experience I had in 299.
 - she is nice
 - Very friendly and approachable and good at helping me work through when I got stuck on a problem. Also willing to answer some of my more in depth questions which is an attribute I definitely value in a professor.
 - yes
