RESPONDERS' COMMENTS FOR MTH 320 001 (FS16)**Question 16: Would you recommend this instructor to another student? Comments on your classroom experience, the instructor's teaching style, and course materials are very helpful.**

- Definitely would recommend! Office hours were especially helpful when I found the material challenging. In-class worksheets helped me a lot as well. Lectures were engaging and easy to understand.
 - Either less difficult quizzes or slightly more lenient grading on either rigorous or quickly-learned topics. Grading seemed a bit too harsh/strict at times.
 - great
 - I would recommend this instructor to another student. She was very engaging in the way she presented material and made exams and quizzes reasonable and my mathematical skills improved as a result. I would definitely recommend this instructor to any student wanting to take analysis.
 - One of the best math teachers that I have had at MSU.
 - She is an excellent instructor with full of passion, but it is better to provide answers for quiz and exams which will give a great help to review.
 - She is the best instructor that I have had in the math department and at MSU. She encourages me to do my best and is willing to help during her office hours. Her ability to answer my questions has really helped me with my understanding of the content of the course.
 - She is the best professor I've ever had. If possible, I would have her be my instructor for all of my classes. I've actually learned the material, rather than memorized it.
 - very good.
 - yes
 - Yes great instructor. I learned a lot - enjoyed the material.
 - Yes, she really tries to help you understand the material instead of just memorizing it.
 - Yes, the course was well organized at a nice pace which was not too fast nor too slow. Some of these definitions I had seen before in Multi-variable Calculus but my professor for Analysis I explained them in a much cleaner manner so that I was actually able to understand what was going on instead of just brushing over it like it was no big deal that I was lost on the concept.
 - Yes.
 - Yes. Tsveta is awesome, and helped me tremendously several times throughout the semester. The class was changed up to best fit the material we were learning and that was really helpful. She was also really helpful when people asked questions in class.
